Note. The heavy-duty boxcars mentioned above were 4-axle cars and had a load capacity of 50 tons. The heavy-duty flatcars were 6-axle flatcars with sideracks and had a load capacity of between 50 and 90 tons.

1. Comment. Shipments to bomber airfields have repeatedly been observed. The purpose of the traffic connections to Brandis, Finsterwalde, and Cottbus where no bomber aircraft are stationed **has** not been **determined**. The shipments to Buckau are destined for the ammunition depot. Shipments dispatched to Wusternmark **have** not yet been **identified**. The shipment observed on 6 July carried a unit to Neubuckow for target practice.
